BIOGRAPHY

Dr. Valérie Boige is a trained hepatogastroenterologist, specialized in digestive oncology. Former head of clinic in the department of hepatogastroenterology of CHU Bicêtre and holder of a DESC of cancerology, she carries out her clinical activity within the department of Digestive Oncology of Gustave Roussy. Holder of a science PhD from Paris V University, she also carries out a research activity within our research INSERM. Her areas of interest are clinical and translational research in the field of digestive cancers, particularly hepatocellular carcinoma and colorectal cancer. Member of the UNICANCER-PRODIGE cooperative group, she coordinates several national multi-center trials on the optimization of metastatic colorectal cancer treatments, in particular on hepatic intra-arterial chemotherapy. Her translational research activity focuses on prognostic and predictive biomarkers of the efficacy of colorectal cancer chemotherapies, in particular on the pharmacogenetics of anticancer treatments. She is the author of more than 200 articles in peer-reviewed journals.

CURRICULUM VITAE

UNIVERSITY TRAINING

2009 : Sciences PhD defended 23rd Nov. 2009, university Paris Descartes (Paris V), Title : « *Impact des polymorphismes constitutionnels et des altérations génétiques somatiques sur l'efficacité et de la toxicité des chimiothérapies anti-tumorales dans le cancer colorectal* » ("mention très honorable")

1999 : DESC in oncology

1995-1998 : "Chef de Clinique" of universities, Hospital practitioner in hepatogastroenterology

1995 : Thesis of medicine defended the 22nd Sept. 1995, Medical Faculty of medicine Lariboisière, **Title: "Prévalence des anticorps anti-endomysium dans la maladie Coeliaque de l'adulte"** ("mention très honorable" with silver medals)

1995 : Master 2 "Biologie cellulaire et fonctionnelle des processus digestifs" (Pr Lewin / university paris VII), Laboratory : CJF

9201 INSERM Tumor genetics - Director : Gilles THOMAS, Title of thesis: "Allélotype haute résolution du carcinome hépatocellulaire - corrélation avec les données anatomiques et étiologiques"

1994 : DES in hepatogastroenterology

HOSPITAL TRAINING

Residency (1989/1994)

– Intensive care unit - St Michel Hospital (Dr. Goursoy) / Nov. 89 - April 90

- Pediatrics unit - CHU Trousseau (Pr. Lasfargues) / May - Nov. 90
- Internal medicine unit - Endocrinologie - Hôpital d'Evry (Dr. Maunand) / Nov. 90 - April 91
- Hepatogastroenterology unit - CHU Pitié Salpêtrière (Pr. Opolon) / May - Oct. 91
- Hepatogastroenterology unit - CHU St Louis (Pr. Modigliani) / Nov. 91-April 92
- Hepatogastroenterology unit - CHU Bicêtre (Pr. Etienne) / May-Oct. & May -August 1993
- Hepatogastroenterology unit - CHU Henri Mondor (Pr. Dhumeaux) / Nov. 1992 - April 1993
- Hepatogastroenterology unit - CHU Beaujon (Pr. Erlinger) / May - Oct. 1994

Clinicat (1995/1998)

- CHU Bicêtre : Hepatogastroenterology unit(Pr Buffet) – (1995/1997)
- Gustave Roussy Institute: Medicine Department (Dr Armand) & radiotherapy department (Pr Eschwèges) – (1997/1998)

Full time MD, Gustave Roussy Institute since Nov. 1998

Practitioner specialized in centers against cancer (concours 07 Nov. 2002)

Gastroenterologie unit (Dr Ducreux), Département of Medicine

Responsible of translational research on digestive tumors in January 2006, in INSERM U981 from 2009 to 2012

Integration in INSERM UMR-S1147 "Médecine Personnalisée, Pharmacogénomique, Optimisation Thérapeutique" since 2012

Experience in clinical and translational research

- Participation to several phases I, II et III clinical and translational mono- or multicentric trials, national or international as investigator
- Principal Investigator of several trials in digestive oncology in particular in the field of hepatocellular carcinoma le domaine du carcinome hépatocellulaire, et de plusieurs études de recherche translationnelle (biomarqueurs pronostiques et prédictifs des cancers digestifs)
